THE SALE OF THE CENTURY

SOUVENIR SHEETS

Here is your opportunity to acquire some real sleepers. Souvenir Sheets are to stamp collectors what Proof Sets are to coin collectors. If you have watched the prices of Proof Sets you have seen them climb during the past several years. If you compare this market to Souvenir Sheets, it should be no secret that Souvenir Sheets have not yet begun to move. We have examined our inventory, plus taken into account the merchandise from our California Estate purchase, and find that we have quantities of each item—and we mean business. We believe that you can acquire these items and watch the market move.

Enticing artistry in Porcelain

There's kite-flying as the March winds blow . . . sand castles in July . . . and other activities to fill their time – and the eye of the beholder. Each plate is individually crafted of fine English bone china, kiln-fired repeatedly to bring out the rich warmth of the artist's colors. Subtle as well as beautiful, this is a gift that will last well beyond the year itself. An orginal work that is part of a collecting tradition. And a limitcd edition – available only until January 31, 1982. 10-3/4" diam.
Order No. L11-139. $58.00

Presenting the gift of the year

The 1982 Franklin Porcelain Calendar Plate, crafted in English bone china. A timely gift that will keep on giving right through to next Christmas, and beyond. The talented artist Margaret Murphy takes you through each month of the year, depicting – in her own delightful style – the way that turn-of-the-century children celebrated the passing seasons. At Christmastime, two youngsters dressed in warm holiday colors put the finishing touches on their snowman. In January, they're warm and snug at a tea party as the snows fall outside.

The caroling birds, with their song ringing out from a delicately crafted porcelain bell. As portrayed by artist Len Ebert, each bird is beautifully portrayed between hand-decorated bands of 22kt gold. 5" high.
Order No. M11-140. $28.00

SUPERIOR ACQUIRES LARGEST PHILATELIC COLLECTION IN 50 YEAR HISTORY

We are very proud to announce the acquisiton of a famous and highly sought-after California Collection containing Worldwide and United States stamps. In addition to the stamps, the collection includes what we believe is the finest and largest holding of U.S. Fractional Currency Proof and Specimen Notes to ever come on the marketplace. The Currency Collection contains, in depth, Notes which until now, are so rare and/or unique that we have not been able to document any market activity over the last 50 years . . .

The stamps make up what is the most unbelievable collection in terms of quality ever seen by this firm. To quote Harold Goldberg, president of Superior, "This collector was 50 years ahead of his time. He knew and understood quality in stamps and would only purchase what he knew was exceptional material. The tens of thousands of stamps represent the finest material we have seen in recent years and we estimate the value of the entire collection to reach into the seven figure range."

We plan to market the stamps through "MoneyTalks" which incidentally is celebrating its 12th year of continual publication. Many of the extremely rare items will be sold in one of our auctions in early 1982. The Fractional Currency Proof and Specimen Notes will be offered in the February 1, 2, 1982 Auction.

The stamps will be marketed to the general philatelic community at prices that will yield a prompt turn-around for us. This means that even the beginner collector will be able to afford to buy quality material at competitive prices. All interested in purchasing merchandise from this collection should hasten to be sure that your subscription to "MoneyTalks" is current — remember, "MoneyTalks" will be the main vehicle for the sale of the stamps. It would be advisable to consider a philatelic subscription and receive both the stamp auction catalogues and "MoneyTalks." This will afford you every opportunity to purchase these fine stamps being sold out of this premier collection. Also, if you are interested in the Fractional Currency Proof and Specimen Notes, subscribe to our numismatic publications. Or you may even choose to purchase a numismatic/philatelic subscription. Subscription information is on page 16.

IT'S TIME FOR SOME DOWN TO EARTH WORDS ABOUT RARE COIN INVESTMENTS

Suddenly everyone seems to be selling rare coins as investments. And diamonds, art prints, etc. This is fine. But as the West's leading coin dealer for three generations (over half a century), we believe we can offer you much more than the Johnny come latelies.

Superior's staff of expert professional numismatists have earned the respect of collectors, investors and their peers throughout the industry in virtually every area of specialization . . . Ancient, World, United States rare coins and Currency, et al. **We have helped assemble some of the most important collections in the United States . . . and are ready to use these same resources in building your collection/investment portfolio, no matter what your budget is.**

Our philosophy is simple. Stay away from anything other than time-tested coins with a proven track record and a consistent history of being in demand. We will choose only those coins that collectors will eventually want when the time comes for you to sell. **And this leads us to suggest our new Brilliant Uncirculated Silver Dollar Acquisition Program.**

Why Silver Dollars

The .900 fine United States Silver Dollars, not minted since the 1930's, are the most popular coins with collectors, investors, and even the general public who used to enjoy giving them away as presents. . . when they still could be purchased from banks for a paper dollar! Each Silver Dollar contains 416 grams of pure silver, giving it a high intrinsic value. The Morgan Silver Dollars, minted from 1878 to 1921, and the Peace Silver Dollars, produced from 1921 to 1935 are all beautiful coins. . . particularly the Brilliant Uncirculated specimens which we strongly recommend for purchase.

Lastly, and perhaps most important, Silver Dollar mintages have felt the ravages of time. Under the Pittman Act of 1918, over 270 million Morgan Silver Dollars were melted by the government! **Fewer than 1 in 100 of those originally made have survived in the Brilliant Uncirculated condition that most collectors prize.**

Silver Dollars have shown amazing price appreciation, tripling in the past five years, with increases generally of 50% to 300%.

While past performance cannot give assurance of future trends, we strongly feel that Silver Dollars as a whole will continue to pace the numismatic market. And we are not alone.

In recent years, considerable serious research has delved into the Silver Dollar field. Out of such studies has emerged expert estimates of how many of the Silver Dollars minted 50 to 100 years ago have survived in Brilliant Uncirculated quality. According to the findings of one researcher, Les Fox, are summarized below:

Type	Original Mintage	Percentage Lost	Percent Surviving	
			UNC	Choice BU
Morgan	657 Million	78	2	0.2
Peace	191 Million	69	9	0.5

This means that perhaps as few as 2.5 million Morgan Dollars and less than one million Peace Dollars are extant in Choice Brilliant Uncirculated condition. By dividing the 2.5 million Morgan Dollars into the 98 different dates and mint-marks, one determines that the average number of choice pieces available per date is a minuscule 25,000! Similarly, for the short-lived Peace Dollar series, there is an estimated average of only 40,000 choice coins per date!

Is there any wonder then, that researcher Fox predicts across the board increases of over 200% in the next decade for choice Morgan Dollars, and over 400% for the Peace Dollars. Individual coins in both series carry projected price increases of as much as 1000% in just the next ten years!

Actually, based on recent market activity and world economic conditions we believe that these projections may prove to be on the conservative side.

THIS IS AN EXCLUSIVE OFFER!

No more than 100 new applicants will be accepted so that we can maintain the Superior standard. The staff of Superior will do everything in our power to insure your complete satisfaction. Otherwise we wouldn't deserve your business.

Your Silver Dollar selections will be carefully balanced to create a diversified investment portfolio that will optimize your chances for appreciation. And it doesn't matter whether you sign up for $150 per month or $2500 . . . you will still be treated as though you were a Rothschild. (By the way, it is worth noting that the Rothschild fortune was founded on trading in rare coins.)

All coins are subject to your approval, and you may cancel the program at any time.

Important Information Regarding Superior's Silver Dollar Acquisition Program

How does the Superior Silver Dollar Acquisiton Program work?

It is really quite simple. First you decide how much you wish to invest each month . . . or perhaps you would prefer a single "lump sum" portfolio. Note: this amount can be changed whenever you wish, or the program can be cancelled. There are no contracts.

We will ship your first Silver Dollar selections immediately. If you wish, you may charge your purchases on any major credit card, otherwise please send numismatic and banking references, and we will establish credit for you as quickly as possible.

Your personal numismatic consultant then takes over. You might receive a single rarity, or a few. Perhaps a full roll of 20 glittering Brilliant Uncirculated Silver Dollars. It will be something different each time . . . chosen just for your diversified Silver Dollar portfolio. Every coin will be a beautiful Brilliant Uncirculated specimen and will be shipped via registered first class mail.

Should you have any questions or comments about your Silver Dollars, you are invited to call or write to your Superior advisor. We promise a speedy reply. Of course, any coins that you do not wish to keep for any reason, may be returned within two weeks for an alternate selection or full refund.

Please keep in mind that Superior is not just another rare coin investment firm. Remember, our over half century of service . . . our staff of internationally recognized experts . . . our reputation We are proud to hold active memberships in the Professional Numismatists Guild, American Numismatic Society, International Association of Professional Numismatists, and numerous regional and specialized organizations.

We look forward to being of further service for all of your hobby and investment needs.

Yes, I want to avail myself of Superior's new diversified Brilliant Uncirculated Silver Dollar Acquisition Program. I understand that only the first 100 applicants will be accepted for this personalized service.

WHO WAS JOHN ERICSSON?

Ask 100 people who John Ericsson was and we will almost bet that not one out of that 100 can tell you who he was. Well, the historical knowledge which is available from Philately puts you ahead of all the others who never heard of John Ericsson. Any advanced Philatelist knows that John Ericsson was born in 1803 and died in 1889 and that he was an engineer who built the union warship,"Monitor." We know this because of the 5c Scott No. 628 which honors him. Back to business, we offer the issue in VERY FINE and NEVER HINGED condition. $100.00 Friedberg 208, Act of July 17, 1861, head of General Winfield Scott. A complete Proof specimen of the obverse only with all five coupons attached. Since there are no known examples of this note extant, a Proof specimen is the only possibility available to the collector. Judging from a lack of a photo in the Friedberg Catalogue, this could very well be a unique example of a hitherto unknown note design. The interest bearing notes are the rarest of all issues of American currency. Many advanced collectors have never had the pleasure of seeing this design note. This note is of highest desirability and rarity. There are a few slight tears at the top but overall a very pleasing and certainly extremely rare item $12.500.00

CENTURY OF PROGRESS EXPO

This issue was for use on Mail Carried by the Graf Zeppelin on its flight to the Chicago World's Fair in 1933. Of the 3,260,000 stamps printed, more than 90% of them were destroyed. This issue is often cited as the "Baby Zepp." It accounts for a sensational growth over the past ten years and all indications point to even better times ahead. ONE THOUSAND EIGHT HUNDRED YEAR OLD "SACRED MOUNTAIN" Silver Didrachms Offered

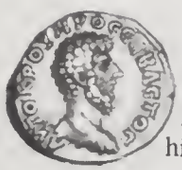
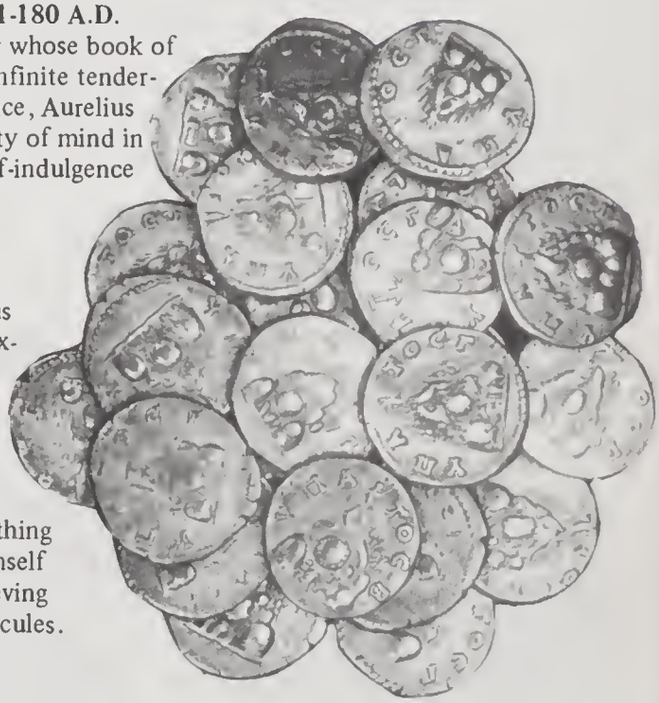
MARCUS AURELIUS, 161-180 A.D.
The philosopher-Emperor whose book of **Meditations**, reveals his infinite tenderness and gentle benevolence, Aurelius taught the goal of tranquillity of mind in an age of universal corruption, self-indulgence and moral decay.



LUCIUS VERUS, 161-169 A.D.
With like and equal sovereignty, Verus ruled jointly with Marcus Aurelius, by whose principles he was not in the least affected, exhibiting looseness of morals and indulging in the excesses of a licentious way of life.

COMMODUS, 177-192 A.D.
Son of Marcus Aurelius but having inherited nothing of the father's nobility, Commodus devoted himself to a life of depraved abandon, deluded into believing that he was the Roman incarnation of the god Hercules.



In ancient times mountains were often considered holy sites, such as Mount Sinai where Moses received the Ten Commandments, the Samaritans' Mount Gerizim, and Mount Ararat in Turkey where Noah's Ark is thought to have come to rest. While these places are relatively well-known, there is another sacred mountain whose sanctity is still shrouded in mystery. In fact, its significance is only alluded to by esoteric representations on certain ancient coins.

This sacred mountain is named Argaeus . . . and the coins on which it is depicted were minted during the Roman Period at Caesarea in Cappadocia, a city which appropriately sat at the foot of the impressive 13,000 foot high mountain.

Ancient Cappadocia was located in Asia Minor, at the crossroads of the civilizations of Persia, Syria, Armenia, Judaea and Rome. It was made a Roman province by the Emperor Tiberius. Claudius was the first to issue coinage from the city of Caesarea, which evolved into the chief imperial mint for the Roman dominions in the East.

As on many Roman Provincial issues, the inscriptions on these Silver Didrachms are written in Greek, but in art-style and appearance, the coins are thoroughly Roman. Most strikingly, Roman models were closely followed in the renderings of the imperial portraits. The Silver Didrachms of Caesarea in Cappadocia may, therefore, be regarded as the connecting link between the Western and Eastern coinages of the Roman Empire during the first two and a half centuries of the Christian era, and, as such, offer unique interest to numismatists and historians alike.

A small hoard of less than one hundred Silver Didrachms which Superior has just acquired contains a good assortment of these fascinating "Sacred Mountain" types in select Very Fine condition, issued by the Roman Emperors, Marcus Aurelius (161-180 A.D.), Lucius Verus (161-169 A.D.) and Commodus (177-192 A.D.). We are pleased to offer these now for the first time at a very modest "Hoard Price". . . just $110.00 each, two different rulers for only $210.00 or all three emperors for $295.00. Because of the very small quantity available, these eighteen hundred year old Silver Didrachms will be sold on a strict first-come, first-served basis. Rush the order form to us today, or you may reserve your coins by calling our toll-free number (800) 421-0754; within California call (213) 278-9740.

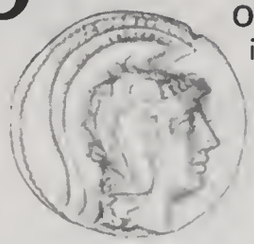
OFFERED FOR THE FIRST TIME:

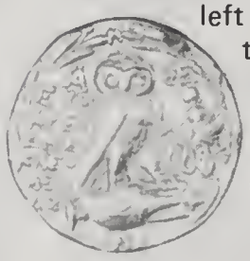
HOARD OF SILVER ATHENIAN TETRADRACHMS

2nd - 1st CENTURY B.C.



Obverse: Head of Athena Parthenos right, wearing pendent earring, necklace, helmet of triple-crested Attic type adorned with the foreparts of several horses above the visor, a flying pegasus above the raised earpiece and a curvilinear ornament on the back; border of dots.

Reverse: Owl right, head facing, wings closed, standing on amphora which lies on its side; to left and right monograms or names of two or three magistrates; normally a symbol in the field, a letter on the amphora and a letter combination below it; all within a wreath of olive.



One of the most popular coins of the ancient world!

One of the most popular coins of the ancient world, the "Owl" coinage of Athens was minted from that famous source of Attic riches, the fabled silver mine of Laurium located on the Aegean Sea. The first of these Silver Tetradrachms were minted in 566 B.C. in honor of the inauguration of the first Panathenaic Games, the most ancient and important festival of Athens, celebrated in honor of Athena.

The basic design of these Silver coins remained the same throughout the Archaic and Classical periods, but by the early Second Century B.C., important changes were made. The Athena/Owl theme was retained; but instead of the Archaic head of Athena with her enigmatic smile, a new likeness of Athena was adopted, suggested by the magnificent gold and ivory statue of Athena Parthenos sculpted by Pheidias in the fifth Century B.C. On the reverse, the intimate connection of this coinage with the Panathenaic Games was emphasized by the addition of the Panathenaic amphora beneath the owl and by the placement of a victory wreath around the entire design.

Across the reverse field there were placed the names of two magistrates, and on later issues a third name was added. Perhaps most interesting (and unique in numismatic history) are those Silver Tetradrachms (Class III) struck from 186 B.C. to the time of Augustus with an added letter on the amphora that indicated the lunar month in which they were struck. And there was even an indication of the particular vein of the Laurium silver mine from which the metal was procured!

The initiation of "New Style" coinage at Athens was a graphic assertion of her precious independence, verbalized in her behalf in the year 196 B.C. at Corinth by the Roman conqueror, Flamininus, who proclaimed freedom for the Greeks, after his victory over Philip V of Macedon. Though determined throughout this period to remain an entity independent of foreign rule and interference, Athens was not strong enough to extricated herself from the insidious web of Roman patronage. In reality Flamininus' proclamation of "freedom" meant rather the enlistment of Athens among the ever-increasing number of client-states of Rome, whose influence and power over the Mediterranean was growing in ominous bounds.

But headstrong and acting with a naive determination to thwart Rome's will, Athens made of herself an ever more annoying thorn in Rome's side. Finally, in exasperation, Rome reduced her to the status of "province" in 146 B.C. in which state Athens grudgingly remained until she was sacked in 86 B.C. by the Roman general, Sulla.

Extremely Rare 1848 "CAL." Quarter Eagle — 2½ Dollar

1848 CAL. MS-60. Brilliant Uncirculated, mostly proof-like. Sharply struck and choice. Delicate orange toning. It is the type of regular issued with CAL. incused on the reverse, directly above the eagle. This was stamped in at the Mint while the coin was still in the die. One curious fact which helps identify the stamp as genuine is that the period after CAL is square, not round. The CAL. is to signify that it was minted from the first mined gold received at the Philadelphia Mint from California. Apparently 1,389 were coined, but from the "frequency of appearance" we seriously doubt if that many were distributed. Easily, the most popular Quarter Eagle and certainly one of the classics of the entire U.S. Gold Series. Ex Hollinbeck, lot 1683, December 31, 1951 and purchased from our Auction '80 Sale, lot 343 . .$17,500.00
